DYNATRANS MPV

Lubricant for transmissions fitted with oil-immersed disk brakes and hydraulic systems on agricultural tractors.

- > Special friction coefficient for brakes and immersed clutch plates
- > Very good stability in service
- > Great shear resistance

DYNATRANS CVT

Special lubricant for CVT transmissions used in agricultural tractors.

- > Progressive operation of the transmission without fits and starts
- > The ultimate anti-wear performance
- > Wide scope of applications

DYNATRANS FR

Lubricant for transmissions fitted with oil-immersed disk brakes and hydraulic systems on agricultural tractors.

- > Special friction characteristics for brakes and immersed clutch plates
- > Added gear protection
- > High anti-foam power

DYNATRANS LS 80W-90

Lubricant for axles equipped with an auto-blocking limited slip differential system.

- > Guarantees high cleanliness of the limited slip disks installed in the axles
- > Prevents noise and vibration under intensive use
- > With its added "Extreme Pressure", it ensures the maximum protection of gears and friction components
- > Excellent compatibility with disk friction materials
- > Excellent performance with respect to seals
